KEY FEATURES

- High density 120 LEDs per metre for a seamless, dot-free light
- 4000K cool white for a clean and natural light
- IP65 silicon coating – resistant to dust and water
- 24V low voltage – safe, efficient and reliable
- Cut every 50mm for custom lengths
- Strong adhesive backing for easy installation
- Dimmable with compatible 24V drivers
- Perfect for a wide range of indoor applications

IMPORTANT

All LED strips require a 24V LED driver (sold separately).
Do not connect directly to 240V mains supply.
